

Bugs are listed by observation, not severity.

Questionable page responsiveness on smaller devices

If the user accesses the given link from a smaller device, it will not have the expected responsiveness.

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Change responsiveness and observe

Actual results:

Poor page responsiveness on smaller devices

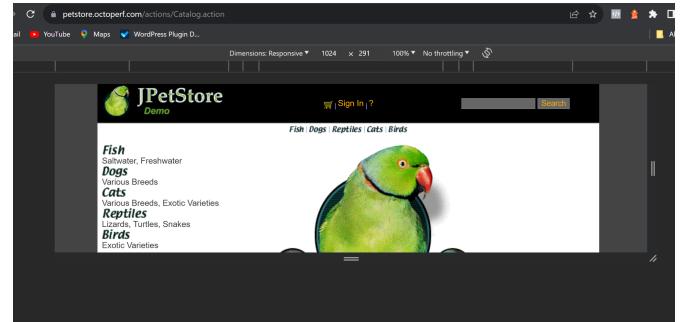

Expected results:

For good user experience page responsiveness should be much better

Frontend

Major

Test evidence:

Search result double message

If the search field is empty and the user clicks on search, a double message appears.

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Search button without entering anything in the search box
4. Observe

Actual results:

"Please enter a keyword to search for, then press the search button." will appear twice.

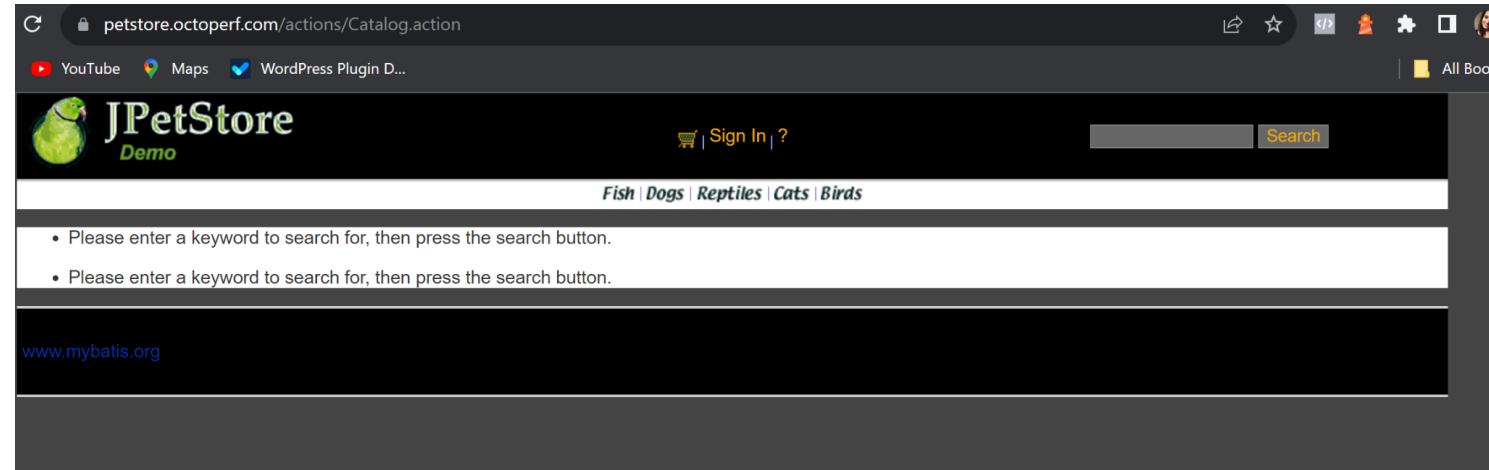

Expected results:

Only one message should appear.

Frontend

Minor

Test evidence:

Search does not work as intended

If the user enters terms that are present on the page, the wanted result will not be obtained. Only some terms are possible for searching

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Search box and enter any animal category
4. Observe

Actual results:

Search results are not correct and complete

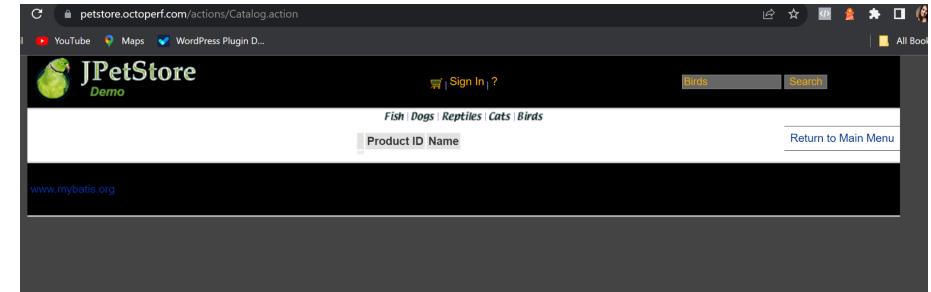

Expected results:

For good user experience search result must be correct and complete

Frontend

Major

Test evidence:

The search result remains recorded even when the user finishes the search

The search result remains recorded even when the user finishes the search and continues exploring the site

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Search box and enter any animal category and click on the Search button
4. Go back to the Landing page
5. Observe
6. Click on anything from the menu
7. Observe

Actual result:

The term that the user typed in the search box will remain even after more user actions

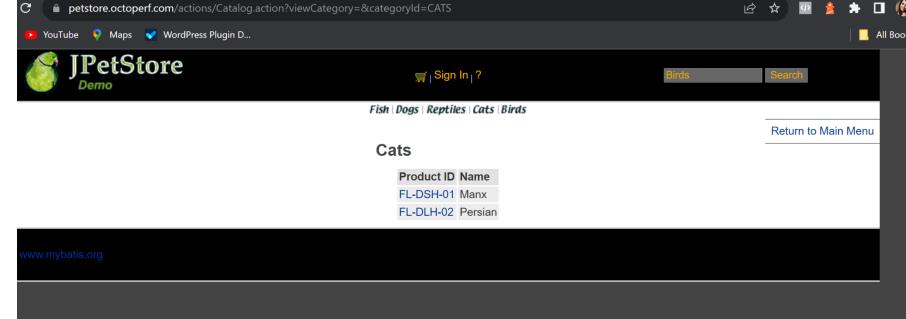

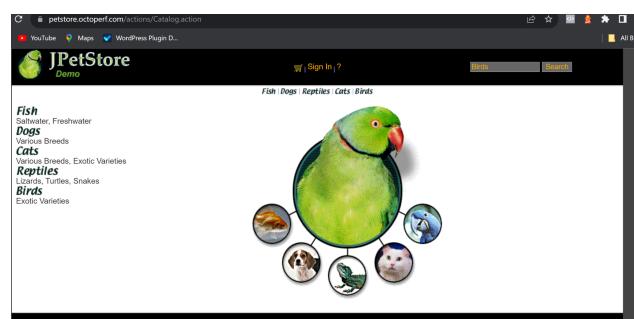

Expected results:

If the term is not found and the user continues to explore the site, the term should disappear from the search box

Frontend

Minor

Test evidence:

The cursor on the search button does not become active

When the user hovers over the search button, it does not become active

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Hover over the Search button
4. Observe

Actual results:

The user does not know whether the button is active until he clicks it

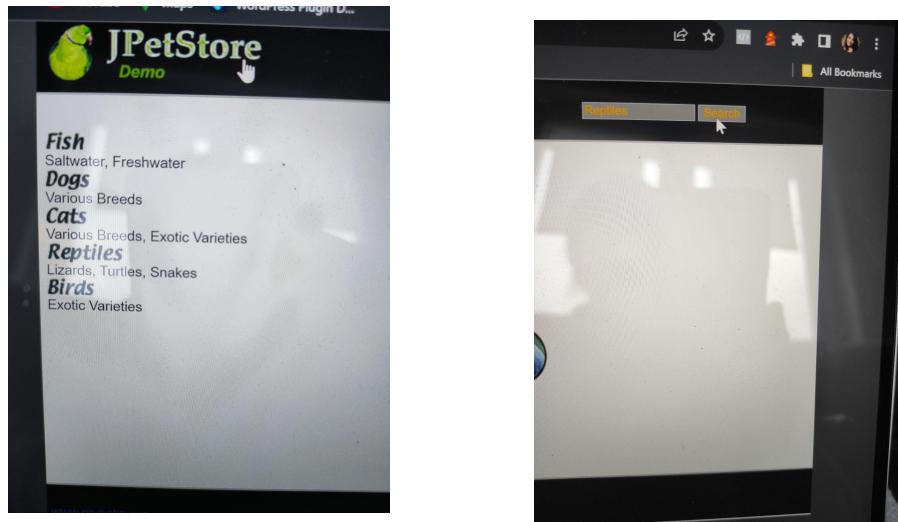

Expected results:

Hand cursor icon should appear

Frontend

Minor

Test evidence:

Predefined sign in password

If the user clicks on the sign In option, he will see that the password field is already filled

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Sign In
4. Observe

Actual results:

Password field is already filled.

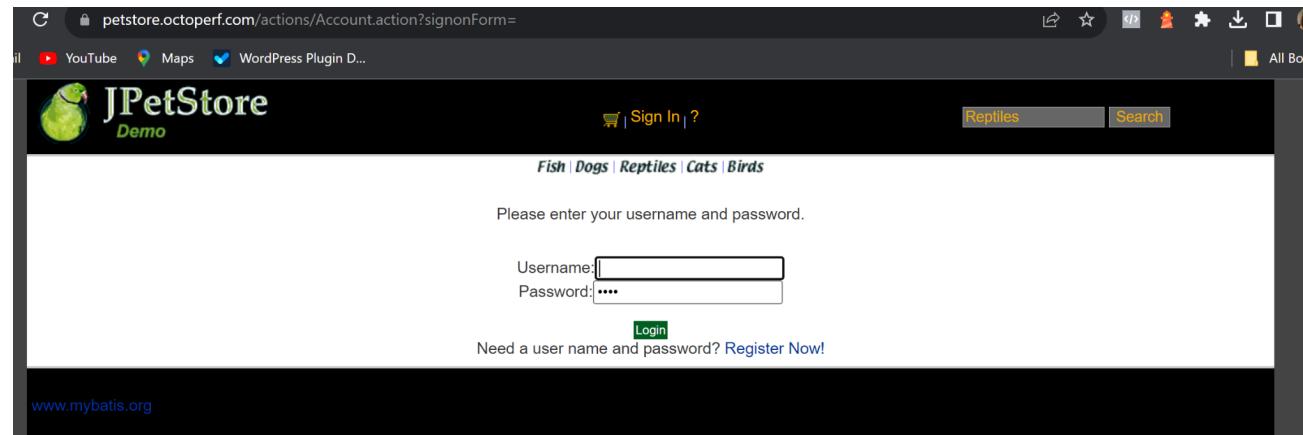

Expected results:

Password field should be blanc

Frontend

Major

Test evidence:

Typo on the sign In page

When user tries to Log In with invalid credentials, error message appears with typo

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Sign In
4. Enter invalid Username
5. Click Log In
6. Observe

Actual results:

Error message with typo appears

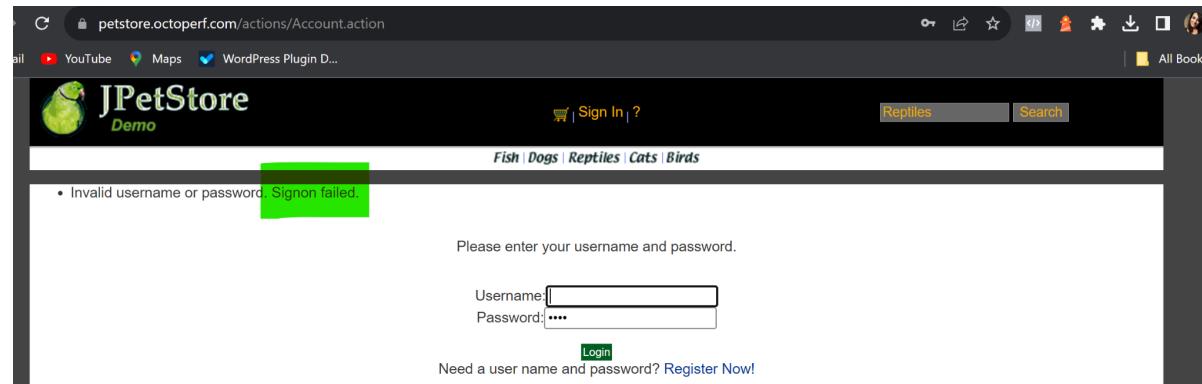

Expected results:

Error message should appear but without the typo

Frontend

Minor

Test evidence:

When registering a new user, there are no fields marked as mandatory and a server error will occur

When a new user wants to register, he does not know which fields are mandatory for him to fill in and he can click on save my account information and a server error will occur

Steps to reproduce:

1. Open browser
 2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
 3. Click on the Sign In
 4. Click on the Register Now
 5. Enter Username and password
 6. Click on save account information
 7. Observe

Actual results:

500 internal error will appear

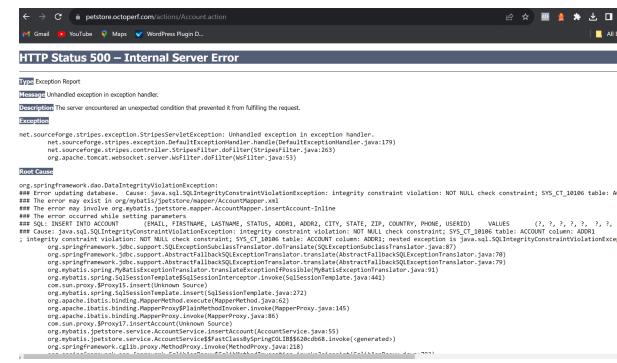

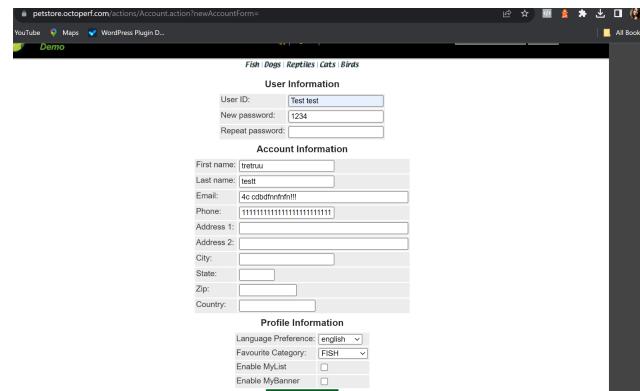

Expected results:

This error should not appear and user should know what fields are mandatory

Mix Front and Back

Major

Test evidence:

There is no form and verification of email, phone, as well as the length of data entered during user registration

There is no verification of the data entered by the user during registration on the site

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Sign In
4. Click on the Register Now
5. Enter UserName, Password, phone, email...
6. Observe

Actual results:

There is no verification of the data entered by the user during registration on the site

Expected results:

There should be some checks on the data that the user enters

Test results:

The screenshot shows a registration form with three main sections: User Information, Account Information, and Profile Information.

User Information:

- First name: trettru
- Last name: testt
- Email: 4c cdbdfmnfnfn!!!
- Phone: 11111111111111111111
- Address 1: 4356458
- Address 2: (empty)
- City: (empty)
- State: 6546
- Zip: test
- Country: (empty)

Profile Information:

- Language Preference: Japanese
- Favourite Category: FISH
- Enable MyList:
- Enable MyBanner:

Buttons:

- Save Account Information

The user can add more pets than there are in the store

The user can add more items to the cart than the store has in stock

Steps to reproduce:

1. Open browser
2. Go to the: <https://petstore.octoperf.com/actions/Catalog.action>
3. Click on the Dogs on the menu
4. Add to cart
5. Add a larger quantity of items than the number that is in stock
6. Observe

Actual results:

User can add more items to the cart than the store has in stock

Expected results:

User should not be able to add more items than available

Frontend

Major

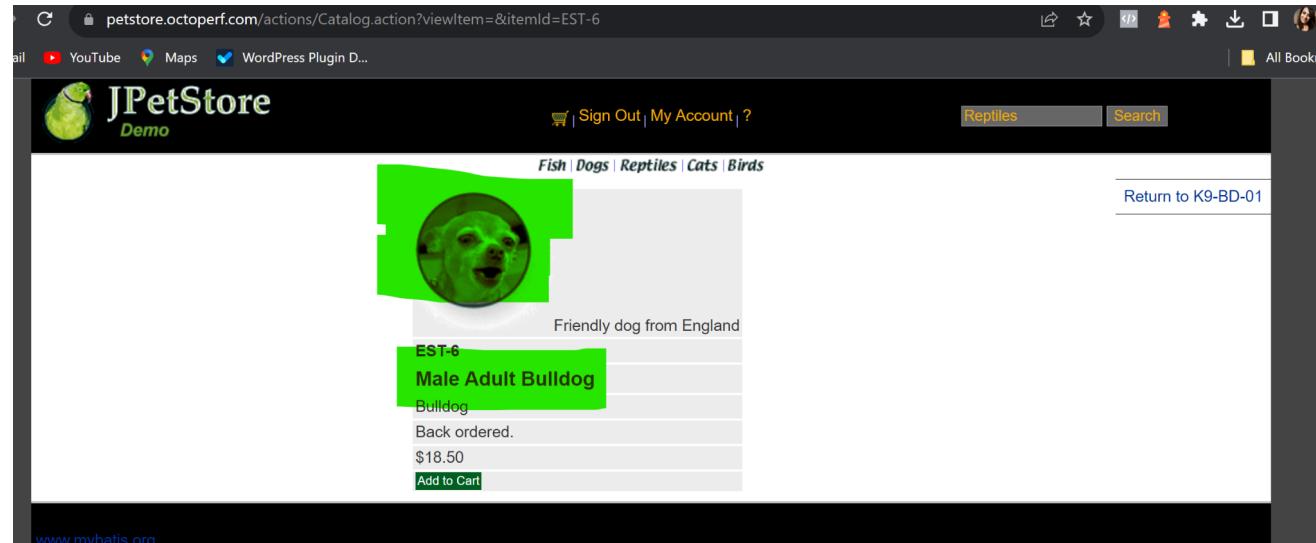

Test evidence:

Screenshot of the JPetStore product page for item EST-9. The page shows a large image of a golden retriever puppy. Below the image, the product name is listed as "Great dog for a Fire Station". The item ID is "EST-9" and the product ID is "Spotless Male Puppy Dalmatian". The price is \$18.50. A green "Add To Cart" button is visible at the bottom.

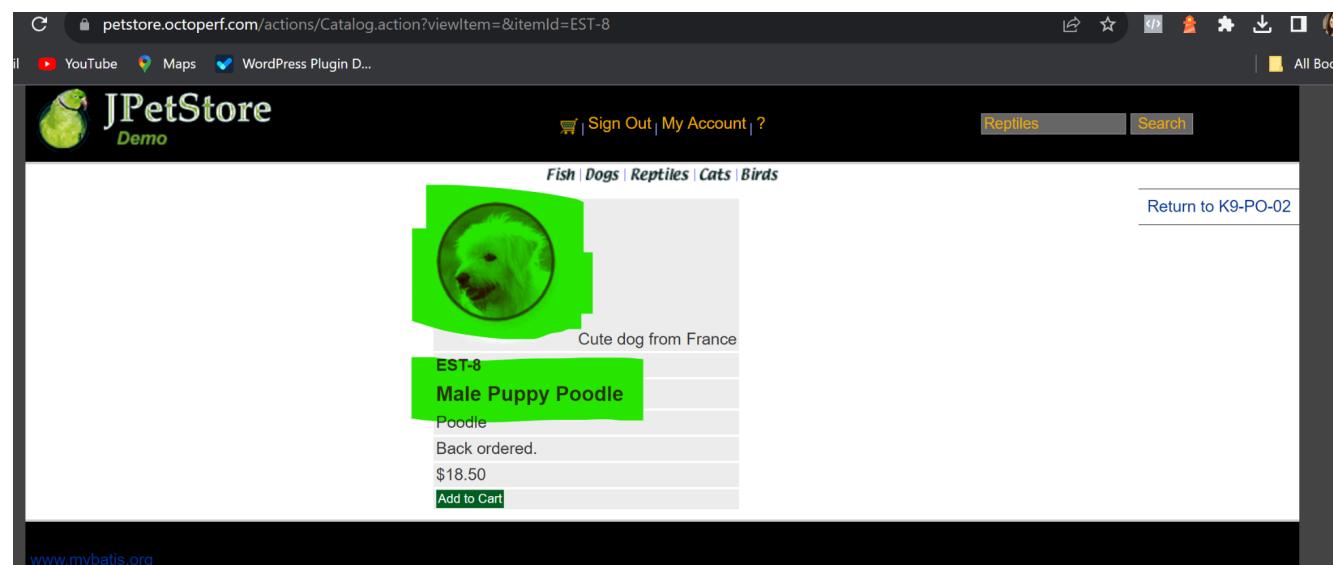

Screenshot of the JPetStore Shopping Cart page. The cart contains one item: "EST-9 K9-DL-01 Spotless Male Puppy Dalmatian true". The quantity is set to 20000, which is highlighted in green. The list price is \$18.50 and the total cost is \$370,000.00. A green "Remove" button is visible next to the item. At the bottom, there is a "Proceed to Checkout" button.

There are a lot of pictures of the pets that don't match the animal's species, and a lot of descriptions that are worrying :D I will list some below.

Test evidence:

A screenshot of a web browser displaying a product page from JPetStore. The URL in the address bar is `petstore.octoperf.com/actions/Catalog.action?viewItem=&itemId=EST-6`. The page title is "JPetStore Demo". The main navigation menu at the top includes links for Fish, Dogs, Reptiles, Cats, and Birds. A "Reptiles" link is highlighted in yellow. The product page shows a large image of a dog's head, which is significantly different from a bulldog. Below the image, the text reads "Friendly dog from England". The product ID is "EST-6" and the name is "Male Adult Bulldog". The description states "Bulldog" and "Back ordered.". The price is "\$18.50" and there is a green "Add to Cart" button. A "Return to K9-BD-01" link is visible on the right side of the page.

A screenshot of a web browser displaying a product page from JPetStore. The URL in the address bar is `petstore.octoperf.com/actions/Catalog.action?viewItem=&itemId=EST-8`. The page title is "JPetStore Demo". The main navigation menu at the top includes links for Fish, Dogs, Reptiles, Cats, and Birds. A "Reptiles" link is highlighted in yellow. The product page shows a large image of a dog's head, which is significantly different from a poodle. Below the image, the text reads "Cute dog from France". The product ID is "EST-8" and the name is "Male Puppy Poodle". The description states "Poodle" and "Back ordered.". The price is "\$18.50" and there is a green "Add to Cart" button. A "Return to K9-PO-02" link is visible on the right side of the page.

The screenshot shows a product detail page for a dog named "Spotless Male Puppy Dalmation". The product ID is EST-9. The description includes "Great dog for a Fire Station". The price is \$18.50. An "Add to Cart" button is visible.
